Human Trimmers

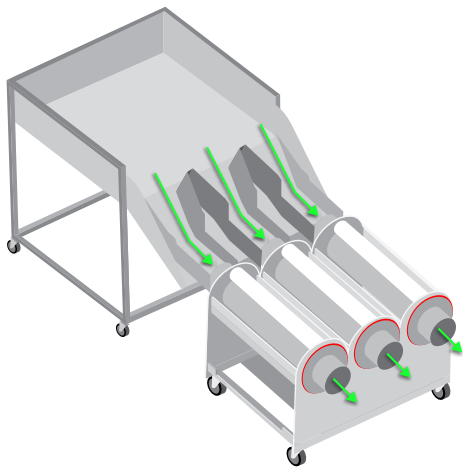

LP's spoke & we listened.
Introducing an LP system built by LP's.

Introducing the newest addition to the Centurion Pro family, the 3.0, Medical Grade Trimming System. Not only is this the highest capacity automated trimming machine in the world, this system comes LP ready with medical grade anodized aluminum and stainless-steel components to meet all Health Canada Standards.

The 3.0 is the highest capacity automated trimming machine in the world, guaranteed, producing the work of over 75 human trimmers without sacrificing quality. Suitable for either wet or dry flowers, this machine will harvest a whopping 52-60 lbs dry (260-300 lbs wet) per hour of use.

MSRP **\$23,995**

Stainless Steel Direct Feed Hopper

The 3.0 medical grade trimmer system comes standard with the largest hopper in the industry, hands down! This component is made of stainless-steel and is designed to handle large amounts of material, therefore meeting the needs of all licensed producers. Simply place the plant material in the top tray and work it down into the triple-barrel system for trimming, as needed.

High Capacity Trim Saver

The new high-capacity trim saver can help you get more out of your harvest! This add-on is easily hooked up between the trimmer and the blower, with no additional pieces to take apart or re-assemble. Designed to help you collect keif and trim with ease, the trim saver protects the keif ensuring it is 100% usable for processing and further profits.

Quality Control Conveyor

The extra-wide belt conveyor system provides the user with total control over the finished product – hour after hour. In addition, this quality control conveyor allows you to monitor the final trim of your flowers and apply touch ups, if needed.

THE MOST CUTTING POWER

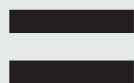

THE LARGEST COMBINED CUTTING SURFACE AVAILABLE IN THE INDUSTRY

The 3.0 features the Centurion Pro side-by-side cutting technology with 3 x 26" cutting reels that equals **78"** of total cutting surface and **140,000 cuts per minute.**

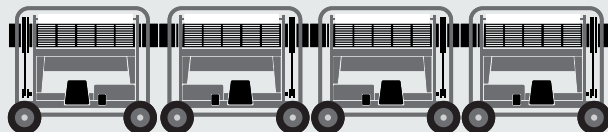

26" x 3 = **78"**
of total cutting surface in **1** machine

FOR **\$23,995**

NEAREST COMPETITOR

21" x 4 = **84"**
of total cutting surface in **4** machines

FOR **\$60k +**

UNSURPASSED QUALITY

MEDICAL GRADE DURABILITY

The body and main components of the Centurion Pro 3.0 are composed entirely of medical grade Anodized Aluminum and Stainless Steel. These machines are built to withstand being moved around, repeated cleaning and prolonged use with zero issues.

HARDENED STEEL CUTTING REEL

Every machine features a Toro hardened steel cutting reel with high quality blades. Additionally, our magnetic blade technology ensures a consistently sharp blade and the cleanest cut in the industry.

RUGGED, STAINLESS STEEL TUMBLERS

The tumblers on each Centurion Pro machine, are made of a rugged, 16 gauge, 304 stainless steel, not aluminum. Larger tumbler diameter ensures that our trimmers will produce more than any other machine on the market.

BEST PERFORMANCE IN THE INDUSTRY

HIGH PROCESSING CAPACITY

The processing capacity of 3.0 is a gargantuan 52-60 lbs/hr dry and 260-300 lbs/hr wet right out of the box without having to add more machines. As a result, this machine can replace up to 75 human trimmers without sacrificing quality.

FINELY TUNED DIVERTER

Ensure the preservation of different strains and densities with our unique diverter that allows you to fine tune air flow and cut during the trimming process.

DOUBLE BAG SYSTEM

Any product that makes it through the trim saver is collected by our double bag system. This system is designed for cleanliness, as well as trim and keif collection so you don't waste any of your precious product for further use.

SIMPLISTIC DESIGN

EASY TO SET UP/TEAR DOWN

This machine requires only 10-20 minutes for set-up and take down to leave you time for more important things.

EASY TO MAINTAIN & CLEAN

We build our machines to be extremely simple with less moving components. This makes them easy to maintain and even fix if anything ever goes wrong. All our machines can be quickly cleaned with a pressure washer in 10-20 minutes.

TRIM WET

Our
Machines Do
Both!

TRIM DRY

All Centurion Pro Trimmers have the versatility to trim both wet or dry flowers - all with a simple change of the tumbler.

BEST WARRANTY IN THE INDUSTRY

At Centurion Pro, we know of the problems associated with downtime and the importance of tight time-lines when it comes to the harvesting process. This is why all of our trimmers are backed by a 10-year warranty. Our knowledge, experience and technology will keep you up and running smoothly for decades to come.

Trust us, we got your back!!

10-YEAR WARRANTY

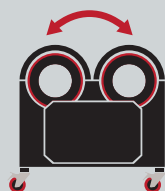

BEST VALUE

CUSTOMER
SUPPORT

INDUSTRIAL CAPACITY

At Centurion Pro Solutions, we believe in having our tumblers side-by-side, not back-to-back in order to prevent extended lengths of time that your product is traveling through the machine.

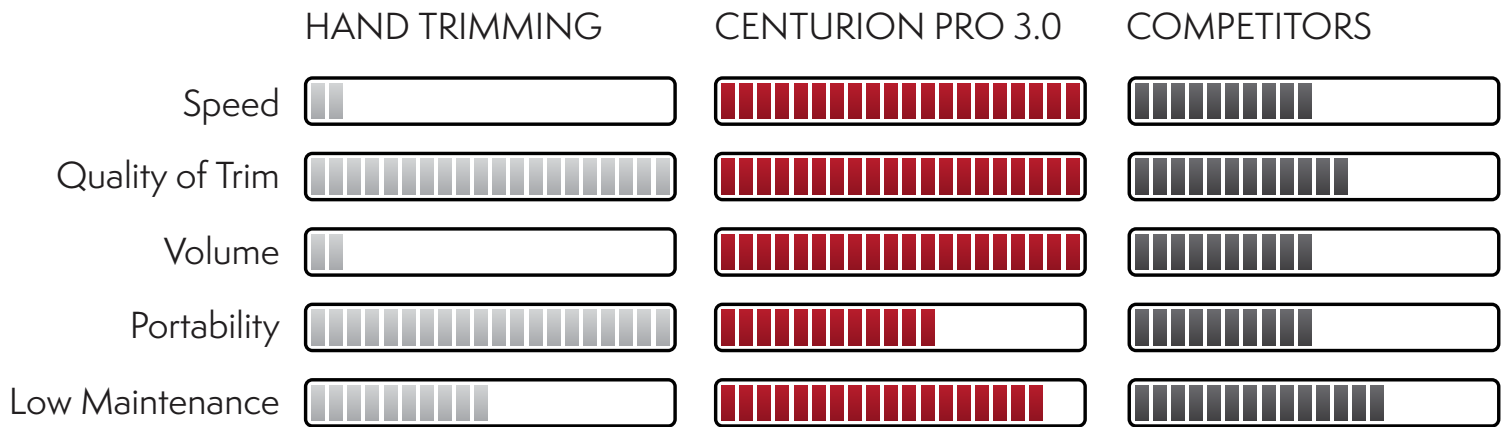

Less Tumbler Travel & Less Agitation = Better Quality

CENTURION PRO is committed to grow with your business

Centurion Pro automated trimmers have a simplistic design to offer unsurpassed quality and the best performance in the industry. When compared to any other competitive machines on the market, our trimmers are proven to have more cutting surface area in their class and greater CFM output due to our high horsepower blowers. Our machines produce more than any other on the market – and at a more economical price. There really is no comparison! CenturionPro trimmers not only save costs by requiring less labor to run and maintain, but our more affordable price point results in a stronger ROI for our customers.
