INDUSTRIAL CAPACITY

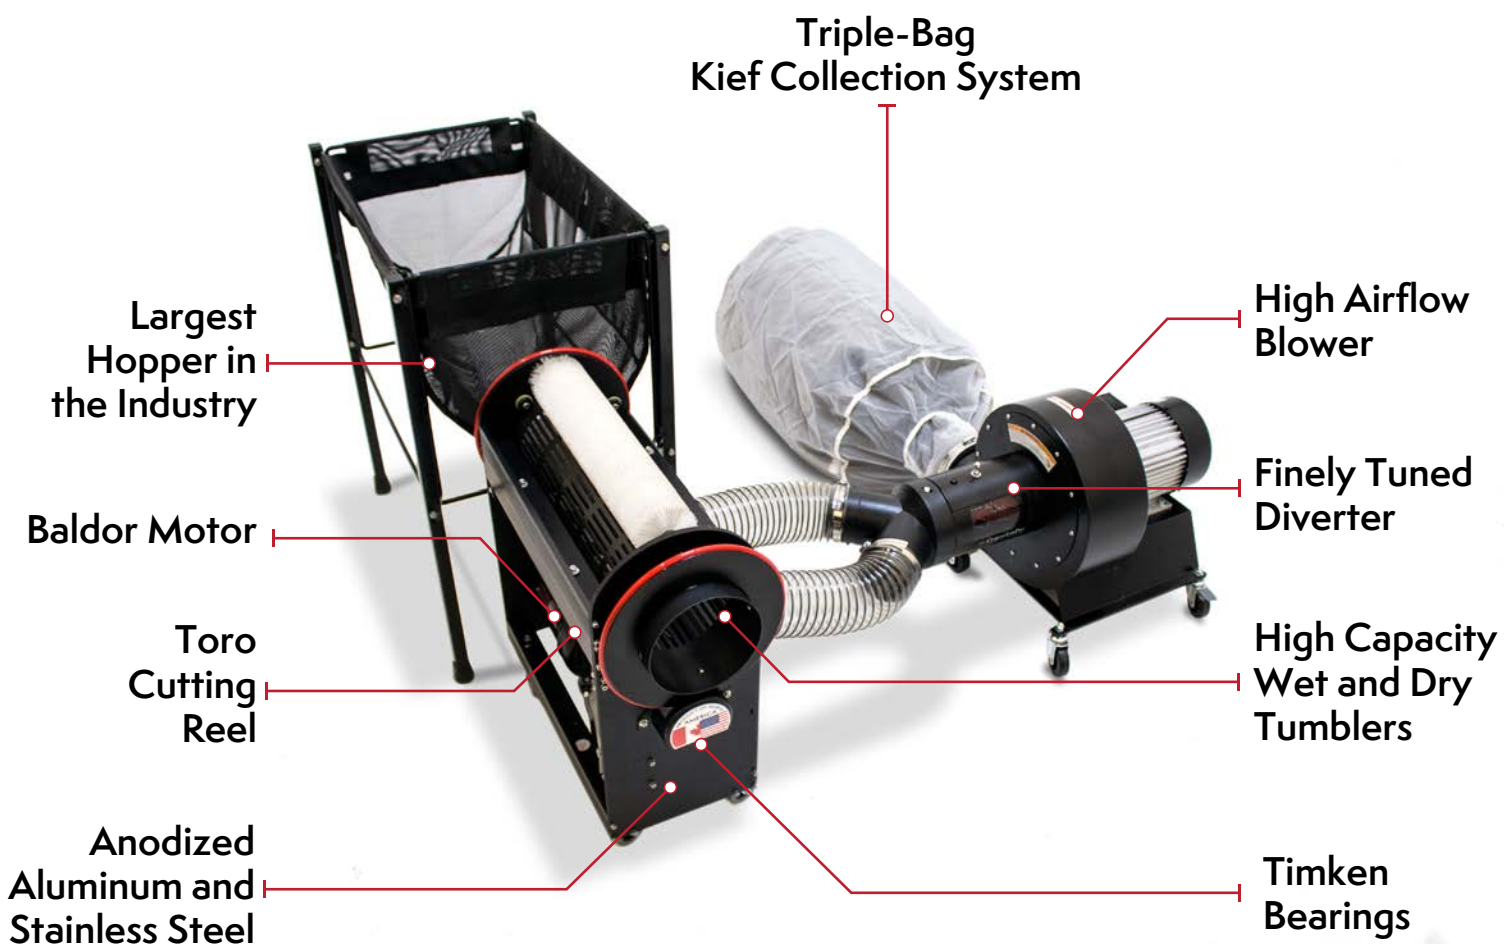

At CenturionPro Solutions, we believe in having our tumblers side-by-side, not back-to-back in order to prevent extended lengths of time that your product is traveling through the machine. Higher quality cutting components and vacuums ensure your product is trimmed in less than half the time of what the other guys recommend.

Less Tumbler Travel & Less Agitation = **Better Quality!!**

THE CENTURIONPRO SYSTEM

EVERYTHING INCLUDED WITH YOUR CENTURIONPRO AUTOMATED TRIMMER. ALSO, ALL CENTURIONPRO TRIMMING MACHINES NOW COME ALL INCLUSIVE WITH BOTH WET AND DRY TUMBLERS.

TABLETOP

The CenturionPro TableTop is masterfully engineered to be the most efficient and delicate tumble style trimmer in the world. Weighing only 16 kg, this new innovation is built for home trimming. Trim in your backyard, garage, discretely in your home or anywhere else you can think of.

The TableTop replaces over 6 human trimmers without sacrificing quality. This machine works with both wet and dry flowers and will harvest 2-3 kg dry (10-15 kg wet) per hour of use. The TableTop runs completely off 220V power and comes with a strong 1 hp leaf collector with 51 m³/min of suction power.

Cuts Per Minute	20,000
Blades Per Reel	7

TABLETOP LEAF COLLECTOR

Input Voltage	5 Amp - 220V
Dimensions (cm)	41 L x 34 W x 34 H
Weight	16 kg
Horse Power	1 hp
Airflow Capacity	51 m ³ /min

ORIGINAL & SILVER BULLET

The machine that started it all, the CenturionPro Original is hands down the best industrial trimmer on the market. These machines do the work of up to 25 human laborers without sacrificing quality! Both the Original & Silver Bullet sit at 76 cm in length X 33 cm wide X 41cm high and are built for mid-sized operations.

Trim either wet or dry flowers and harvest 7-9 kg dry (35-45 kg wet) an hour. These machines come inclusive with a 3hp leaf collector system that produces 78 m³/min of suction power. The Silver Bullet, the twin sibling to the Original, comes with a marine grade infinity Bluetooth stereo and silencer to reduce noise of the trimmer by 30%.

MINI

The CenturionPro Mini is a powerhouse in a small package and is one of the most sought-after machines on the market. Don't be fooled by the name, this miniature version of the Original still packs quite the punch.

This machine will do the work of up to 20 human trimmers without sacrificing quality. Trim either wet or dry flowers and harvest 5-8 kg dry (25-40 kg wet) per hour of use. The Mini runs completely off 220V power and comes inclusive with a 1.5 hp leaf collector system with 57 m³/min of suction power. Perhaps the most distinctive quality of the CenturionPro Mini is the 11 high quality blades which are more than double of what the competitors offer.

THE GLADIATOR

The CenturionPro Gladiator trimmer provides class-leading power and processing capacity for commercial and industrial grow operations. Designed with your success in mind, The CenturionPro Gladiator industrial harvesting machine drastically increases your ROI by doing the work of 40 human trimmers. All without sacrificing quality!

Suitable for either wet or dry flowers, this machine will harvest 14-18 kg dry (70-90 kg wet) per hour of use. The Gladiator features side-by-side cutting technology with 2-53 cm cutting reels, 2 tumblers and an industrial strength 4hp leaf collector system with over 85 m³/min of suction power. Essentially two machines for the price of one.

UNSURPASSED QUALITY

DURABILITY

The body and main components of CenturionPro trimmers are composed entirely of Anodized Aluminum and Stainless Steel. These machines are built to withstand being moved around, repeated cleaning and prolonged use with zero issues.

HARDENED STEEL CUTTING REEL

Every machine features a Toro hardened steel cutting reel with high quality blades. Additionally, our magnetic blade technology ensures a consistently sharp blade and the cleanest cut in the industry.

RUGGED, STAINLESS STEEL TUMBLERS

The tumblers on each CenturionPro machine, are made of a rugged, 16 gauge, 304 stainless steel, not aluminum. Larger tumbler diameter ensures that our trimmers will produce more than any other machine on the market.

UPGRADE TO QUANTANIUM TO ACHIEVE 40% GREATER TRICHOME PRESERVATION

Our Quantanium Coated Tumblers delicately handle flowers and give 40% greater trichome preservation. This technology prevents precious trichomes from adhering to the tumbler surface without the need for special lubricants or sprays.

BEST PERFORMANCE IN THE INDUS-

MORE CUTTING POWER

CenturionPro machines feature incredible cutting power ranging from 20,000 to 140,000 cuts per minute. Each system also comes with a well-designed leaf collector with a range of 1-6 hp motors for pure suction power.

HIGH PROCESSING CAPACITY

CenturionPro machines have an impressive processing capacity with the ability to do the work of up to 75 human trimmers. This allows our machines to trim a substantial amount of product per hour, dry or wet.

FINELY TUNED DIVERTER

Ensure the preservation of different strains and densities with our unique diverter that allows you to fine tune air flow and cut during the trimming process.

TRIPLE-BAG SYSTEM

Our triple-bag system is designed for cleanliness, as well as trim and keif collection so you don't waste any of your precious product for further use.

Learn more at: cprosolutions.com/keif-collection-bag-system/

SIMPLISTIC DESIGN

EASY TO CLEAN

All of our machines, excluding the tumblers, can be quickly cleaned with a pressure washer in 10-20 minutes. The tumblers are easily cleaned with warm, soapy water and a quick wipe.
